PROFESSIONAL SUMMARY

Java Backend Developer with nearly **3 years of experience** building enterprise applications and backend services using **Java, Spring Boot, REST APIs, Microservices, JPA/Hibernate, MySQL, and Apache Kafka**. Experienced in **fintech payment platforms and HRMS applications**, including payment gateway integration, authentication and authorization, API development, database optimization, debugging, and application maintenance. Hands-on with **Spring Security, JWT, React.js, Docker, AWS, Git, Maven, JUnit, and Swagger**. **Immediate Joiner** seeking Java Backend Developer opportunities.

CORE TECHNOLOGIES

Languages	Java 8, SQL, JavaScript, Python
Backend	Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST APIs, Microservices, Apache Kafka, Swagger
Databases	MySQL, MongoDB
Cloud / DevOps	AWS EC2, AWS S3, AWS RDS, Docker, Jenkins, Git, Maven
Frontend	React.js, JavaScript, HTML5, CSS3
Security	JWT Authentication, OAuth2, Role-Based Access Control
Testing	JUnit, Unit Testing
Core Java	OOP, Collections Framework, Streams API, Exception Handling, Debugging, SQL Optimization

PROFESSIONAL EXPERIENCE

Software Engineer

Jun 2026 – Aug 2026

Saigun Technologies Pvt. Ltd.

Noida

Empxtrack – Enterprise HRMS Platform

- Developed and enhanced HRMS modules covering attendance, timecard, employee reporting, payroll, and workflow management using **Java, Spring Boot, SQL, JavaScript, HTML, and CSS**.
- Implemented business requirements, validations, status handling, report changes, and backend/UI enhancements.
- Wrote and optimized SQL queries for attendance, reporting, payroll, and workflow-related data processing.
- Debugged existing application flows, identified root causes, and implemented fixes to improve application stability.
- Collaborated with senior developers and QA teams for requirement analysis, testing, debugging, and delivery.

Software Engineer – Java Backend Developer

Nov 2023 – May 2026

V Vang Solutions Pvt. Ltd.

New Delhi

Payvang Aggregator – Fintech Payment Platform

- Developed and maintained backend services using **Java 8, Spring Boot, REST APIs, Microservices, Hibernate, JPA, and MySQL**.
- Integrated **Cashfree and Razorpay** payment gateways for order creation, payment verification, transaction tracking, and webhook processing.
- Implemented authentication and authorization using **Spring Security, JWT, and Role-Based Access Control**.
- Designed REST APIs for payment processing, user management, transaction management, reporting, and payment status tracking.
- Used **Apache Kafka** for asynchronous event processing and communication between backend services.
- Optimized MySQL queries and backend workflows for improved application performance and reliability.
- Used **Java Collections Framework and Streams API** for business logic, transaction processing, and data transformation.
- Containerized applications using **Docker** and deployed backend services on **AWS EC2**.

VangoGames – HTML5 Gaming Platform

- Developed full-stack features using **React.js, Spring Boot, REST APIs, and MySQL**.
- Implemented user onboarding, game session handling, activity tracking, coin rewards, and incentive management workflows.
- Built React.js dashboards for signup, login, profile management, gameplay access, and reward tracking.
- Optimized SQL queries and transactional workflows for performance and consistency.

Java Developer Intern

Sep 2022 – Nov 2022

ThinkNext Technologies Pvt. Ltd.

Mohali

- Developed backend components using **Core Java, Java 8, Spring MVC, Hibernate, and SQL**.
- Implemented business logic using OOP concepts and **Java Collections Framework**.
- Performed SQL operations, debugging, testing, and maintenance of Java-based applications.

PROJECTS

Cashfree Payment Gateway Integration

Spring Boot / MySQL / REST APIs / Webhooks

GitHub Repository

- Developed a payment processing backend using **Spring Boot and Cashfree REST APIs**.
- Implemented order creation, payment verification, webhook handling, and payment status tracking.
- Stored order and transaction information in MySQL and handled successful, failed, and pending payment scenarios.
- Deployed the application on **AWS EC2**.

EDUCATION

Bachelor of Technology in Computer Science

2019 – 2023

Uttarakhand Technical University

CERTIFICATIONS

Java Internship Completion – ThinkNext Technologies | **Python Basics** – Infosys | **React JS Training Completion**
